📍 Bengaluru, India

PROFILE

Product & UI Designer focused on turning complex problems into clear, user-centered interfaces. I work end-to-end, from research to high-fidelity, polished designs, using AI to speed up my process and light coding fluency to hand off dev-ready work.

PROJECTS

- | | |
|-------------------|--|
| 08/2026 – 08/2026 | Parchi - UPI Payments App ↗
<i>Case Study</i>
Designed and built a 46-screen UPI payments prototype modeled on NPCI's real registration and KYC flow, covering onboarding, payments, and an informal khata ledger. Shipped as a live interactive demo with a published case study. |
| 01/2026 – 08/2026 | Flow - Focus App Design ↗
<i>Case Study</i>
Built a focus app for planning, timing and reflecting on a day. 22 screens on one visual system, shipped across two iterations, January and August 2026. |
| 08/2026 – 08/2026 | Screen Timer - Desktop App & Data Tool ↗
<i>Personal Project</i>
Built a Windows desktop app in Python that tracks per-app screen time, then designed the interface that turns that data into a clear daily view, history charts, and break nudges. Fully local, no accounts, no network calls, built end-to-end. |

SKILLS/TOOLS

Design — Product Design, UX Research, Prototyping, Interaction Design, Design Systems

Tools — Figma, Framer, Claude Code, Adobe Photoshop

Code & AI — HTML, CSS, JavaScript, Python, AI-assisted workflows, Dev handoff
